

CaddyTrek[®]

CaddyTrek “Marching Mode” Instructions

Getting Started:

1. While in FL mode, turn your body so that it's facing the CaddyTrek and clip the handset to the front center of belt/pant.
2. Start walking and the CaddyTrek will march in front of you.
3. To go back to FL mode, turn your body back to the FL position, move the handset to your back belt/pant and start walking.
4. To disengage, press the STOP or FOLLOW button.

Using Marching Mode

1. Stand 3.5 ft. from the unit and between the sensors.
2. Clip handset to front of belt (make sure the handset is facing the unit).
3. Move towards the CaddyTrek to engage unit.
 - a. Turning the unit while in Marching Mode:
 - Move one-half step in the opposite direction.

Tips

- For best results, make sure the handset sensor and unit sensors are facing each other with a clear line of site.
- Walk slowly and guide CaddyTrek carefully to clear hazardous areas such as bodies of water, bunkers, and other obstructions.
- Take sharp turns at a slower pace.
